

Unit 1 Worksheet 6 Practice - Output

Name _____

1 of 1

Pts: 0

class hour _____

I. Given the program segment below, fill in the blanks below under Output:

```
int a, b;  
int c = 3, d = 4, e = 5, f = -6, g = 2;  
c = c + 1;  
d = d - 1;  
e = e + 10;  
f = f + f;  
a = g * 3;  
c.println("1) The value of a is " + a);  
c.println("2) The value of b is " + b);  
c.println("3) The value of c is changed to " + c);  
c.println("4) The value of d is changed to " + d);  
c.println("5) The value of e is changed to " + e);  
c.println("6) The value of f is changed to " + f);  
c.println("7) The value of g is " + g);
```

Output:

- 1) The value of a is _____
- 2) The value of b is _____
- 3) The value of c is changed to _____
- 4) The value of d is changed to _____
- 5) The value of e is changed to _____
- 6) The value of f is changed to _____
- 7) The value of g is _____

II. Write a single c.print statement that will produce the two lines of output, below, where the number 42 is stored in the variable ahgttg.

*Use the variable not the number, 42, in your answer.

Note 1: There is a space between the 42 and the period

Note 2: Show blank spaces, that are not between words, by a

Note 3: Use \n to do this.

Note 4: Read listing 2.4 on page 67 in your blue book.

The answer
is 42 .
