

Unit 2 Lab 8 - Intro to Applets

class hour _____

Pts: 5

Name _____

page 1 of 1

I. Graphics output of a Java Applet

1) a) Open **P1ch2lab8.java**

b) Run and describe what happened (there should be no error)

c) Open **P1ch2lab7.java** and keep **P1ch2lab8.java** also open

d) Compare the two programs and answer:

(1) What is an applet (Note: You will probably have to look this up in you regular text book.)

(2) What new import package is needed to do applets

(3) What is new about the line naming the Class

(4) Instead of having an object like c of type Console that accesses methods we have

(a) what object (a) _____

(b) of type what (b) _____

e) Change all three g's to c's then Run and describe what happened (Note: there should be no error)

Turn in this sheet to be graded!
